

ACA Cutting Oil (Air Craft Approved)

Finally a Cutting Oil that Cuts Tool Wear, Cuts Downtime, ... Cuts Costs ...

ACA technology - Air Craft Approved for Titanium!
And environmentally friendly!

Using exclusive XPL+ technology, this ready-to-use Cutting Oil takes performance to a new level by bonding to the cutting tool which reduces wear generated by metal removal.

APPLICATIONS

- Roll threading
- Stamping
- Grinding
- Gear hobbing
- Sawing
- Gearboxes of screw machines
- Broaching
- Threading
- Turning
- VMC's
- Metalforming
- CNC machining
- Lathes

BOTTOM LINE BENEFITS:

- Improves speed & feed rates
- Improves surface finishes
- Reduces down time
- Cuts down wear & tear
- Lowers power consumption
- Reduces smoke & noise
- Extends machine & tool life
- Resistant to foaming

For all ferrous & non-ferrous alloys.

Ideal for:

- Alloy steels
- Stainless steel
- Titanium
- Waspalloy
- Inconel
- Mild steel
- Aluminum
- Copper alloys

| ProOne # | SIZE | CASE PACK |
|----------|---------------------|-----------|
| 19001 | 1 gal/3.785L | 4 |
| 19005 | 5 gallon/18.9L pail | 1 |
| 19055 | 55 gallon/208L drum | 1 |
