

# NITRO

Downhole Drilling Fluid Technology

"We Saved Over \$300,000 with ProOne... Amazing!" - Major Operator

## 50x More Powerful Than Typical Lubricants

Formulated with ProOne's XPL+ Technology, Nitro's positively charged molecule structure bonds to metal, optimizing lubrication. It has a film strength 50 times more powerful than conventional lubricants, withstanding more than 200,000 psi of pressure! This dramatically reduces the coefficient of friction.

Compatible with all drilling fluids, Nitro is the proven solution to drilling challenges.

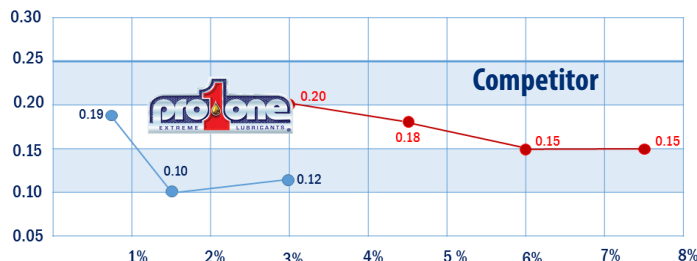

### ADVANTAGES

- Reduces torque
- Increases ROP
- Saves drill bits
- Saves mud motors
- Saves trips
- Drills curve in half the time
- Straighter verticals
- Minimize twist off risk
- Helps free stuck pipe
- Reduced hook load
- Reduces well bore damage, especially vibration induced formation damage

ProOne#	Size
51055	55 gallon drum
51275	275 gallon tote

## Outperforms Competition Even At... 1.5% vs 7.5%

LEM II Computer Controlled Dynamic Lubricity Testing WTC-14-004685

## UNMATCHED TECHNOLOGY

- Withstands high heat (beyond 500°F+)
- Unprecedented film strength (200,000psi)
- Rheological stabilizer
- Water dispersible
- Environmentally friendly
- Non-toxic
